

Elliot A. Smith

Partner, Construction and Infrastructure

.....  
**Toronto**

(416) 862-6435

esmith@osler.com  
.....

Bar Admission: Ontario, 2008

Areas of Expertise

- Nuclear Energy
- Government and Public Sector
- Professional Services
- Renewable Energy
- Power and Utilities
- Manufacturing
- Agribusiness
- Mining and Natural Resources
- Infrastructure
- Construction

Elliot advises his clients on all aspects of construction and infrastructure projects across Canada, including project development, structuring, procurement, contract negotiation and administration.

He regularly advises clients on all areas of construction law, including construction contracts, lien holdback, prompt payment and other legislative obligations; design and consulting contracts; major equipment supply agreements for all types of industrial equipment; O&M and services agreements; and long-term utility supply agreements. Elliot’s practice has a strong emphasis on the development of energy assets, including both renewable and conventional generating facilities.

Prior to joining Osler, Elliot worked at a number of institutions involved in the Ontario electricity market, including Ontario Power Generation, the Independent Electricity System Operator (IESO) and the Ontario Power Authority (prior to its merger with the IESO). He is also a professional engineer.

Elliot is the author of *The Canadian Construction Contracts Guidebook*, the leading Canadian text on construction contracts. The second edition of the book was published in 2025.
