Mergers and Acquisitions

Mark's practice focuses on regulatory health law and regulated health products. He has advised various health care providers, health care associations and food, cosmetic, pharmacy, pharmaceutical, medical device, over-the-counter and natural health products clients on commercial and regulatory matters including regulatory restrictions, regulatory approvals, labelling, advertising and promotion, recalls and crisis management.

Mark has experience helping clients deal with regulatory agencies such as the Health Products and Food Branch of the Department of Health, the Product Safety Program of the Department of Health and the Canadian Food Inspection Agency. He is also a licensed veterinarian.
